Oklahoma Approved Medical Micropigmentation Course

A Career in Permanent Makeup

Permanent makeup is a very exciting and rewarding career. With a career in permanent makeup, you can be your own boss and become an entrepreneur. With a Medical Micropigmentation License, the possibilities for growth are endless as you are not only limited to brows, eyeliner and lips. After mastering these standard procedures, many artists choose to advance into more advanced procedures like areola pigmentation and scar camouflage also known as Paramedical Tattooing

What Will You Learn During Your Course?

Our Oklahoma approved Medical Micropigmentation is a 300-hour course.

This course will be 3-4 months long (this will vary due to time of year and holidays). Classes will be held 2 days per week. During this course you will learn the fundamentals for permanent makeup. The procedures you will learn during this course are ombre eyebrows, lip blushing and eyelash enhancement eyeliner. Babe Ink does not feel microblading is a proper procedure as it is traumatic to the skin and most clients are not good candidates. We will not train students how to microblade and will cover in detail the reasons behind this.

You will be required to perform 18 procedures to graduate and be eligible to take your exam through the State Board. Students are responsible for finding their own models for these procedures. The models will pay a fee of \$150 to Babe Ink to cover the supplies used for their treatment including their aftercare kit.

♥ Below are photos of the procedures you will learn during this course: Ombre eyebrows, Eyelash Enhancement Eyeliner & Lip Blushing

MEET YOUR *Trainer*

Becca

Becca is licensed in Medical Micropigmentation, a licensed instructor in Medical Micropigmentation, licensed esthetician & phlebotomist.

She began her career as a permanent makeup artist in 2017. Prior to this, Becca worked as a makeup artist for over a decade. Since becoming a permanent makeup artist, she has successfully completed several thousand procedures. The permanent makeup industry is constantly evolving and Becca frequently attends courses & conferences to ensure you are being trained with the most current industry knowledge.

Oklahoma State Requirements

To work as a Permanent Makeup Artist in Oklahoma, you are required to meet the following criteria.

- ♥ Must be 21 years of age
- ♥ Must have a high school diploma or GED
- ♥ No felonies or crimes of moral turpitude
- ♥ You will be required to have an overseeing physician to work as a permanent makeup artist/medical micropigmentologist in the state of Oklahoma. You must work from the office at which they see their patients. You are responsible for finding your own Overseeing Physician, we can not assist with this.
- ♥ Blood borne pathogen certification & CPR certification are required (these can be done online and must be completed by the first day of class).

The state will require proof of these to be sent in with your application upon completion of the course. They will run a background check.

Are There Any Other Requirements?

Becoming a permanent makeup artist may not be the appropriate career choice for you if you have neck, hand or back pain, issues with vision, or an unsteady hand. This career requires dedication, patience, the ability to remain calm under pressure, being able to be sedentary during procedures, and a natural artistic eye. You will be taught the fundamentals you need to succeed; However, it will be up to you to apply them. You will need to market yourself, build your business, practice, and grow as an artist. Beginning your career as a permanent makeup artist may be more challenging to those that are not already in the beauty or aesthetic industry and already have a client base. However, this is not a requirement as there are so many successful artists who began without any industry experience or client base. You are required by Oklahoma law to work out of a physician's office and you are responsible for finding a MD, DO or DDS to work under. You will not be allowed to work until you have this.

Where are the Classes Held?

Classes are held inside the Institute for Beauty, Wellness & Regenerative Medicine. This is where Babe ink is located. We are in Midtown Tulsa, on 19th and Harvard.

How Many Students Will be in the Class?

Our classes will be kept to an intimate class size.

Babe INK

A MESSAGE FROM THE TRAINER

Oklahoma Approved Permanent Makeup Course

I would like to take a moment to say thank you for considering Babe Ink Academy! When I began my career in permanent makeup a course at I attended was sub-par. I was left feeling frustrated and discouraged. I began researching and found another instructor felt confident in as I decided to invest again into my education. She properly trained me, sharing every detail and secret. Upon completing my training with her, my ultimate goal was to master my craft so I could become an instructor in Oklahoma. I would like to make an impact on my students' lives the way she impacted mine. Medical micropigmentation is a very exciting and rewarding art. I have created a course to provide you with tools you need a successful career in permanent makeup.

Love & Becca
